STEM professionals in schools

we are again thrilled to announce Belinda Pickett as our STEM professional in school. This program is designed to connect industry with schools, teachers and students. STEM Professionals in Schools increases teachers' confidence and encourages students to consider STEM as a future career path, which will be essential to meet Australia's future economic growth and productivity

Have a fabulous week.
Regards,
Bec Jamieson

Principal's Report

Welcome to Week 6!

Acquaintance Night and AGM

Thank you to the families who were able to attend acquaintance night. It was nice to have an informal gathering and time to chat. Governing Council also met and had their AGM last night. For 2019 the Governing Council members are: Kaya Copeland-Court, Cheyenne Mortimer, Daniella Beggs, Michael Noack, Susi Lanthois, Naomi Baldock and Belinda Pickett. I would like to thank all past and present member for their contribution.

School to home communication

In keeping with developing 21st Century skills, and reducing our carbon footprint, the Skoolbag app is available for Springton Primary. This app, which can be downloaded free onto a smartphone from the AppStore, is a useful communication tool for receiving instant messages from school. Our newsletter will be published on Skoolbag from now on and replaces hard-copy newsletters (unless you specifically request them). Remember, of course, newsletters are always available on the school website which can be visited at www.springtnps.sa.edu.au.

Thank you!

Thank you to Nikki Warboys who donated five bags of horse manure for us to use in our compost bays.
Thank you to Heidi Roesler who has assisted our students with discus and shot put in readiness for district athletics day.

Parent Survey

If you have not yet returned the parent survey that was sent home last week, can you please do so as soon as possible. As I mentioned, this information is to assist future decision making and forms part of the school report.
